---

Dear Sir/Madam,

I am thrilled to be writing to apply for a job as a Graphic Designer Intern at Kouprey Communications. As a recent Computer Science graduate from Royal University of Phnom Penh, I have a good understanding of the basic functions of industry-standard programs like Adobe Photoshop and Adobe Illustrator.

In addition, I understand with front-end development, specifically with HTML, CSS, Bootstrap, Tailwind CSS, JavaScript and Figma. My education in computer science has improved my ability to think critically, solve problems, and be creative. This has helped me to approach design in a creative, practical, and strategic way.

I am independent, flexible and able to work in teams, and I am sure I am up to the challenges. I believe that I will contribute to your organization development. I am looking forward to hearing from you. Thank you for your consideration.

Sincerely,  
Keo Sieklorn
